

METRO FIBREWERX INC.

January 21, 2010

PRESS RELEASE

Metro Fibrewerx Inc. announces the appointment of its President and CEO

Markham, Ontario, Canada, January, 25, 2010 – Metro Fibrewerx inc. is pleased to announce that Alexander (Alex) Smith, RCDD, is named President and CEO of the company and that Metro Fibrewerx Inc. is the process of deploying a Metropolitan Area fibre optic network in downtown Toronto in response to Information Technology users requiring connection to dedicated, open access dark fibres on variable term contracts.

Alex Smith has over 20 years experience in designing and installing Information Transport Systems for all types of IT and Telecom users in the Canada and elsewhere including major Metropolitan Area networks in the Toronto and Washington, D.C. areas. Metro Fibrewerx Inc. is pleased that Alex Smith is now leading the company and he is one of the original founders. He has successfully developed partnership and supplier relationships with many of the world's leading manufacturers of Inside and Outside Plant cabling and related telecom components.

About Metro Fibrewerx Inc.:

Based in Markham, Ontario, Metro Fibrewerx Inc. provides dedicated private and secure open access fibre optic networks for business enterprises, government and institutional users and to telecom carriers and Internet Service Providers. Metro Fibrewerx Inc.'s fibre networks are deployed utilizing traditional installation methods as well as micro trench technologies for building laterals and last mile connections.
